Ready for an Online Class?

To be a successful LASC online student you must keep a few things in mind.

1. Online classes at LASC follow the same academic schedule as our other classes. The classes start on the day published in the schedule of classes and you must find your class and sign in on or before that date, or you may lose your place in the class.

2. Online classes at LASC are all asynchronous-paced classes. This means you do not have to be online at any particular time, but you must complete assignments according to the schedule established by your instructor. This is very important! You cannot work at your own pace, but must adhere to the class’s schedule. You will probably have assignments the first week of class, so again it is important that you find your class and sign in.

3. Online classes offer the opportunity to fit classes into your busy schedule yet they have the same requirements for class hours and outside assignments as traditional classes. Online classes require self-discipline and time management.

4. Most online classes at LASC can be found by going to http://online.lasc.edu. Once there you will need to Set Up Your Account. You will find a link with a tutorial on how to do this on the main page.

5. Online classes require 3 things:
   1. A reliable computer with high-speed Internet connection.
   2. The ability to use a web browser and basic windows skills (cut, copy, paste, create folders, save and retrieve files etc.)
   3. Active Email Account. You can NOT take an online class if you do not have an active email account. Use either email service: http://yahoo.com or http://gmail.com
