Instructor: Mr. Ramos
EMAIL: RamosGA@LASC.edu

Office location: TEC 281C Phone: 323-241-5262

Office Hours: MTWTH, 7:30-8AM, 9:10-9:35AM, 10:45-11:10AM in TEC 281C, Tuesdays & Thursdays 1:00-1:30 PM in the Math Lab Tec 190

Prerequisites: Passed Math 112 with a "C" grade or appropriate score on placement exam

Attendance Policy:
1. Class begins at 11:10 A.M. Be on time!
2. If you miss any day of the first week of class you will be dropped.
3. This is a 3-unit course. You will be allowed 3 hours of absence time. This translates into two allowed absence days (excused or unexcused). Arriving late five times or leaving early five times counts as one absence! I may take roll anytime during the class. If you are not present during roll time, it’s your responsibility to let me know you were late by class end. 
   Students are responsible for all announcements made in class regardless of their presence. You may be dropped on the third absence.
   *******You will be dropped on the fourth absence - No Exceptions*******
   It’s your responsibility to drop!

Adding Policy: Add deadline Monday Sept 13 (No Exceptions) Ticket No. 1673

Material Covered: Chapter 1-10 The entire book! – Bring it to class daily
This course prepares students for their first course in Algebra. Topics include brief review of arithmetic, operations with signed numbers, variables, expressions, linear equations, word problems and Units of measurement; British and metric systems and conversions.

Objectives: We will have a balance approach to mathematics utilizing computational skills, conceptual understanding and problem solving.

1. Solve or evaluate operations on real numbers.
2. Develop and apply techniques for operating on signed numbers including basic concepts and applications thereof.
3. Apply basic properties of algebra: commutative, associative and distributive.
4. Apply techniques to solve or simplify rational Numbers, equivalent fractions, and order of operations.
5. Apply techniques to solve and check simple mathematical equations.
6. Apply techniques to translate verbal sentences into algebraic equations or expressions.
7. Solve simple word problems.
8. Present topics involving polynomials.
**SLO's:** As a result of this learning experience a student can:

1. Use the distributive property to simplify an algebraic expression.

**Math Lab:** Students enrolled in this course are required to spend about 1.25 hours each week in the Math Lab for a total 18 hours by semester's end. **Location:** Tec 190. **Hours of operation:** MTWTH: 8am-8pm. Free tutoring and workshops are available. Also: Free Tutoring programs. **Last day to complete your 18-hour obligation is Thursday Dec 9.**

**Homework:** Homework will be assigned every meeting and it is to be done daily. An assignment submitted late **will not** receive any credit. **Staple** the homework in order, with last name first, chapter, and section numbers. Clearly label each section at the top right of each page. **Write your Roster # on the upper right hand corner on everything you turn in.**

**Grading:**

**A** 90-100%  **B** 80-89.5% **C** 70-79.5% **D** 60-69.5%  **F** below 60%

To pass the class (receive "C" grade), your overall grade must be at least 69%.

**Final Exam:** Tuesday Dec 14@ 12:30 PM-2:30 PM. You must take the final exam to receive a passing grade.

**Tentative Exam schedule:** Test 1- Ch1&2 Thursday Sept 16

ALL EXAMS ARE CLOSED BOOK AND NO NOTES. NO CALCULATORS ARE ALLOWED!

************************************************** THERE ARE NO MAKEUP EXAMS/QUIZ**************************************************

**Note:** If for any reason you do not take a test, I will drop one Test (lowest or one missed); This does not apply to a missed final exam, or an exam in which a student received a “0” due to the academic dishonesty policy.

**ACADEMIC DISHONESTY:** Cheating will not be tolerated. You will be reported without hesitation to the appropriate school authorities and receive a “0” grade for the assignment.

**Calculator Policy:** All of the skills related to the course must be demonstrated without the use of a calculator. Calculators **will not** be permitted on exams or on any activity in class.

**FOOD/DRINK POLICY:** No food, No drinks, No Gum in class. **Only** clear bottled water allowed.

**CELL PHONE POLICY:** Please put away (not on your desk) and Turn off (or silent mode) all electronic devices and **cell phones** during class. Text messaging is not allowed during class. If there is any cell phone use (including ringing) you may be asked to dismiss yourself from that class meeting. You will receive a “0” grade on the test, if any electronic device is on your desk during any test/quiz.
Note: Please limit your talking during class to discussions with the instructor. Talking during class is not acceptable; respect your peers by listening and participating at the appropriate times.

Class Climate: Each of you is expected to contribute to each class session by arriving on time, being attentive, and participating in the class discussion/problems. Disruptive conversions, eating, texting, any cell phone use, and sleeping are not acceptable behaviors in the class environment. In addition to arriving on time, students are expected to stay the whole class period. Please avoid disrupting fellow classmates by arriving late or leaving early. Students are encouraged to ask questions. The only wrong question is an unasked question; if asking that question would have improved your understanding. I will attempt to answer all student questions during class.

Conduct: Dishonest or disruptive behavior is grounds for being dropped from the class.

Drop deadlines: no “W” Sunday Sept 26* and Drop with a “W” deadline Sunday Nov 21*(online)

Holidays: Thurs Nov 11 Veterans Day & Thanksgiving Thurs Nov 25.

Student ID checking: I will be checking for a valid picture ID (CA ID or drivers Lic or Student ID)

Students with disabilities who need any assistance or accommodations should contact the instructor by the end of the first day of class. FYI - DSPS office (323) 241-5480

Steps for success in math:

1. Buy your book today! And bring it to class daily! (2 copies in library, 1 copy in Math Lab, & 1 in my office during office hours)
2. Attend class regularly and be on time ready to learn.
3. Ask questions.*
4. Find a quiet place to do your work.
5. Before you attempt your homework: Read your book carefully, work out the examples in the book, Reread your class notes and practice the examples worked in class.
6. Start your homework soon after class.
7. Completing the homework and studying are different. After completing the HW, go back and review (study) the major ideas that have been presented thus far.
8. Learn from your mistakes and successes. When you receive your quizzes/Tests (regardless of what the score is), find time to re-do them. Re-do your Tests 3 to 5 times on weekends until you know the information well.
9. Prepare for each test.
10. Attend office hours/Math Lab.
11. NEVER GIVE UP!

LEARNING COMES FROM DOING!
